Shawn Gallagher

From Résumédia, the fake encyclopedia

Shawn Michael Gallagher is a computer science undergraduate in Pennsylvania. He has significant customer service experience and is acquainted with computer technologies like full-stack development and digital design. He is seeking a part-time position or internship for summer 2025.

Education

Gallagher attended Parkland High School from September 2018 to June 2022 and graduated with a 3.9 GPA, earning High Honor Roll every semester. Starting in 2022, he attended the Honors College at Bloomsburg University (Computer Science, BS) for two semesters before transferring to Pennsylvania Western University. He maintains a 3.52 GPA and is expected to graduate by Spring 2026.

Work experience

* From August 2020 to February 2022, Gallagher worked as a cashier and shift leader at YoFresh Yogurt Café[1] in Allentown, Pennsylvania. He would open, close, and oversee the store as a stand-in manager. He was also trained to disassemble, clean, and reassemble the store's machinery for producing frozen yogurt and rolled ice cream. He also occasionally coordinated coupon/discount deals with other businesses in the shopping center.

* While attending his second semester at Bloomsburg University (February to June 2023), Gallagher worked as a host at Marley's Brewery & Grille. He would greet customers and bring them to their tables. The job also included bussing tables, restocking silverware, and petting customers' dogs on the patio.

* During this time, Gallagher was also involved with a digital humanities research project with his Honors professor[2] for a period of three months. The position involved scanning local historical documents such as scrapbooks, magazines, and architectural blueprints to upload to an online database. He would often write Excel macros and image-processing scripts.

* From July 2023 to January 2024, Gallagher worked as a bartender at Mixx Nightclub & Lounge[3] in Allentown, Pennsylvania. After training as a barback for two months, Gallagher worked on weekends mixing and serving cocktail orders from a bar adjacent to a dance floor. The position also included coordinating time slots with music performers/DJs and placing orders for supplies/ingredients. Special events were held on holidays serving customers from the neighboring bowling alley.

* From Late June to Early August in 2024, Gallagher worked as an in-person coding camp instructor at Barack Obama Academy of International Studies in Pittsburgh, Pennsylvania. Through the provider Coding with Kids[4], he taught a five-week introductory programming curriculum centered around the block-based language Scratch to rising 1st and 3rd graders. By the end of camp, students were able to use laptops and iPads proficiently, communicate basic coding concepts, and show off a variety of handcrafted games and animations.

* During the most recent holiday season (November 2024 to February 2025), Gallagher worked as a seasonal Brand Ambassador (Sales Associate) at American Eagle Outfitters in Erie, PA. He assisted customers on the sales floor, met rewards and credit card goals, and kept the store organized. He also gained hands-on experience with the POS system, managed fitting rooms, and helped fulfill online orders.

Skills and qualifications

Since July 2023, Gallagher is RAMP certified for serving/selling alcohol in the state of Pennsylvania.

Soft skills:
* Public speaking
* Restaurant/bar service
* Classroom management
